SharkFest '17 US

Hands-On TCP Analysis

Tuesday, 20th of June 2017

Jasper Bongertz
Security Analyst | Airbus Defence and Space CyberSecurity

Sorry...

- This presentation was a zero slide presentation
- Everything was live demoed and hands-on
- There was no recording as far as I know
- Even these three slides are made up and weren't shown at Sharkfest 2017
- Sorry for this. I'll probably do some blog post or screen recording later
  - Best way to get notified about those publications is to follow me on Twitter
